Professional Summary

Software engineer who builds clean, reliable software and makes complicated things simple. I enjoy building web applications from idea to launch, and I am open to team projects and freelance work.

Projects

Limat Cup – Football Tournament Management System 2026

Web application

- Designing a web platform where organizers manage teams, fixtures, match results, and league standings for local tournaments.
- Public pages let fans and supporters follow fixtures, results, and standings from their phones or computers; an admin dashboard is for organizers.
- League positions are calculated automatically from points, wins, draws, losses, and goal difference.

Personal Portfolio Website 2026

HTML, CSS, JavaScript

- Designed and built a responsive portfolio with a sticky navigation that highlights the current section and a mobile menu.
